This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

**Recommendations (optional):** In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

- **Encrypt sensitive data** to protect customer credit card information and PII/SPII.
- **Implement access controls** to ensure employees only access data necessary for their roles.
- **Deploy an Intrusion Detection System (IDS)** to monitor and alert on suspicious activity.
- **Maintain an updated asset inventory** and classify assets based on risk levels.
- **Set up regular data backups** and establish a disaster recovery plan.

- **Create a maintenance schedule** for legacy systems to ensure timely updates.
- **Strengthen password policies** and enforce the use of a password management system.
- **Require Multi-Factor Authentication (MFA)** for accessing critical systems.
- **Conduct regular security audits** to ensure compliance with regulations.
- **Provide cybersecurity training** to employees on phishing, password security, and data protection.
- **Develop and test an incident response plan** to handle security breaches effectively
